

trak5000 Installation guide

trak5000 is a three wire easy fit product designed for automotive installation.

The product has an integrated high sensitivity GPS receiver with internal antennae for both GPRS/GSM and GPS in order to simplify the installation.

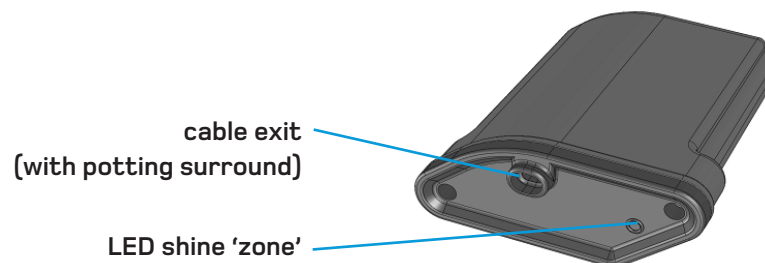

WIRING CONNECTION:-

BLACK	Negative/GND
RED	Switched Positive Supply – Ignition (9-35 VDC)
GREEN	Sense Wire – Must be connected to Negative/GND
Cable Length	One Metre

LEDs

Power	ON when Power has been applied – GREEN
Status	Bicolor
	<p>RED</p> <ul style="list-style-type: none"> - Always flashing - Every second – SIM has NOT registered (BAD GSM coverage) - Every 4 seconds – SIM has been registered on the Network
	<p>GREEN</p> <ul style="list-style-type: none"> - Flashing when GPS has a valid lock

Please note:- The LEDs will NOT be visible externally.

Step 1

Always complete a **Vehicle Inspection Form** prior to working on the vehicle. This will help to identify any vehicle defects and ensure that it is signed by the customer prior to working on the vehicle.

Step 2

Always ensure that the unit is facing away from any metal with good signal visibility and fitted covertly. The internal GSP and GSM antennae are facing up towards the top of the unit.

Step 3

Wire the unit to the vehicle ensuring that the connections are crimped or OEM recommended.

IMPORTANT: NEVER CUT ANY OF THE VEHICLE WIRING

Step 4

Place the unit in the intended position (**DO NOT FIX**) and turn the ignition **ON**. The unit must be commissioned via the trakglobal gateway or the Trak Global commissioning team.

Step 5

Once satisfied the unit has a GPS Lock and Registered on the GSM network, fix the unit to the vehicle in its position and tidy up any excessive cables with cable ties. Reposition the unit if necessary.

Step 6

Clean any marks and tidy up loose cabling from the vehicle and return the vehicle to its original state.

Step 7

Complete the **Installation Form** and ensure that the form is signed by the customer prior to leaving the premises..

IMPORTANT INFORMATION REQUIRED:

Vehicle registration, make, model, colour, mileage and device serial number.

For more information call **0845 163 7999** or email support@trakglobal.co.uk
